JOB APPLIED FOR

Senior Software Engineer

WORK EXPERIENCE

October 2020 – Present

Lead Software Engineer
Cyklpoint, Rabat, Malta.

I have been working mainly as a backend developer in a multicultural team with a challenging context for a waste industry company. We have been developing an innovative waste cycle management digital platform.

Main stack:

- ASP.NET Core
- Consul
- MongoDB
- MySQL
- Redis
- Docker
- SignalR
- Git
- Github
- Atlassian Jira

January 2020 – October 2020

Development Team Lead
Bit8, Gzira, Malta.

I had been guiding development team efforts towards successful project delivery, always trying to maintain high standards of software quality by establishing good practices and habits. Collaborating with other software developers and business analysts to plan, design, develop, test, and maintain the platform. Assisting in the development of user stories, estimates, and work plans. Also focusing on the packages and support them through the deployment of releases.

March 2019 – January 2020	**Software Development Executive**

Bit8, Gzira, Malta.

I have worked as a full-stack developer with multicultural teams in a challenging environment, dealing with continuous integration and tight deadlines using scrum methodology. Developing and giving support to an object-oriented and multi-tier web application for an iGaming platform (casino, sports bets, poker, payments, and other industry related products), including test coverages, code reviews, and   technical   analysis.

Main stack:

- ASP.NET
- MySQL
- PHP
- Javascript
- HTML5
- CSS3
- Bamboo
- Selenium
- Specflow
- Git
- Gitlab
- Atlassian Jira

May 2017 – March 2019	**Software Engineer**

CI&T, Campinas, São Paulo, Brazil.

Global Coca-Cola Project., Atlanta, GA, U.S. (May/2018 ~ March/2019).

I have worked as a full-stack developer with a US team in a multicultural and challenging environment for a beverage industry multinational, dealing with continuous integration and tight deadlines using scrum methodology. Developing and giving support to a web application, including test coverages, code   reviews,   and   technical   analysis.

Main stack:

- AEM (6.3 and 6.4)
- Java 8
- AWS
- Javascript
- NodeJS
- Google Cloud Platform
- Jenkins
- Angular
- Behat
- Git
- Bitbucket
- Atlassian Jira

Modular Mining Inc. Project, Tucson, AZ, U.S. (May/2017 ~ May/2018).

I have worked as a full-stack developer with a US team in a multicultural environment using scrum methodology. Developing and giving support to many object-oriented and multi-tier desktop and embedded applications for a mining industry multinational, including many types of test coverages, code reviews, and technical analysis.

Main stack:

- .NET embedded and desktop
- Microsoft SQL Server
- Specflow
- Team Foundation Server
- Team Foundation Version Control

February 2016 – May 2017

Junior Software Engineer

CI&T, Campinas, São Paulo, Brazil.

Coca-Cola Brazil Project, Rio de Janeiro, RJ, BR (Feb/2016 ~ May/2017).

I have worked as a backend developer with Brazilian teams in challenging environments for a beverage industry multinational, dealing with continuous integration and tight deadlines using scrum methodology. Developing an object-oriented backend to an Angular web application, including backend test coverages, code reviews, and technical analysis. During a period in this project, I was completely responsible for the report solution and the report team.

Main stack:

- ASP.NET WCF
- ASP.NET WebApi
- Microsoft SQL Server
- Microsoft Reporting Services
- Jenkins
- AWS
- Git
- Bitbucket
- Atlassian Jira

| February 2014 – February 2016 | **Intern Software Engineer** |
| | *CI&T, Campinas, São Paulo, Brazil.* |

TransCanada Project, Houston, TX, U.S. (Feb/2014 ~ Feb/2016).

I have worked as a full-stack developer with US teams in a multicultural and challenging environment, dealing with continuous delivery and tight deadlines using scrum methodology. Developing an object-oriented and multi-tier web application for a gas industry multinational, including many types of test coverages, code reviews, and toxicity analysis.

Main stack:

- ASP.NET MVC
- Razor
- Microsoft SQL Server
- Javascript
- HTML5
- CSS3
- Git
- Bitbucket
- Atlassian Jira
- Specflow
- JMeter

EDUCATION AND TRAINING ■

| February 2011 – June 2017 | **Bachelor's degree, Computer Engineering.** |
| | Pontifical Catholic University of Campinas, Campinas, São Paulo, Brazil. |

| Communication skills | Since 2014 I have been working in international projects with remote teams. During these 6+ years, I've been working with clients around the world, sharpening my soft skills such as effective communication and problem-solving. |
| Organizational / managerial skills | ▪ Source control Migration (In 2019 I had the opportunity to migrate SVN to GIT to the entire company) ▪ AEM Migration (In 2018 I had the opportunity to migrate the AEM project 6.3 to 6.4 version) ▪ Leadership (In 2016 I had the opportunity to be responsible for the entire team) |

Job-related skills	▪ Good command of quality control processes (focused in Scrum methodology).
	▪ Effective communication.
	▪ Problem-solving.
	▪ Open to learn new technologies.
	▪ Good to train other employees.

Other skills	I enjoy all sports particularly soccer and running. I love to travel, experience different cultures and meet new people.

Driving license	B
